

EMPLOY BEE

Henry Liu, Robin Warner, Cameron Whiting

FROM TASKS TO TRAINING

Audience and Features

Designed for small business **owners** and **managers**.

Checklists of daily tasks informs employees of the exact expectations of each shift.

An **interactive map** displays where to keep inventory to prevent stocking mishaps.

A **protocol database** contains detailed instructions for employees to review.

THE FUTURE OF EMPLOYBEE

Reflections and Extensions

Improve **login functionality** and further develop manager side.

Expand **map customization** capability to allow employers to further specify inventory requirements.

Implement a **scheduler**.

MANAGEMENT MADE EASY

Motivations

Small business owners frequently face difficulty when **managing employees remotely**.

Standardized protocol can be difficult to **centralize** and **make available** to each employee, especially if the manager is not available at all times.

COMPETITORS

Monday.com

Group task manager which caters to long term projects instead of individual daily tasks.

Workday

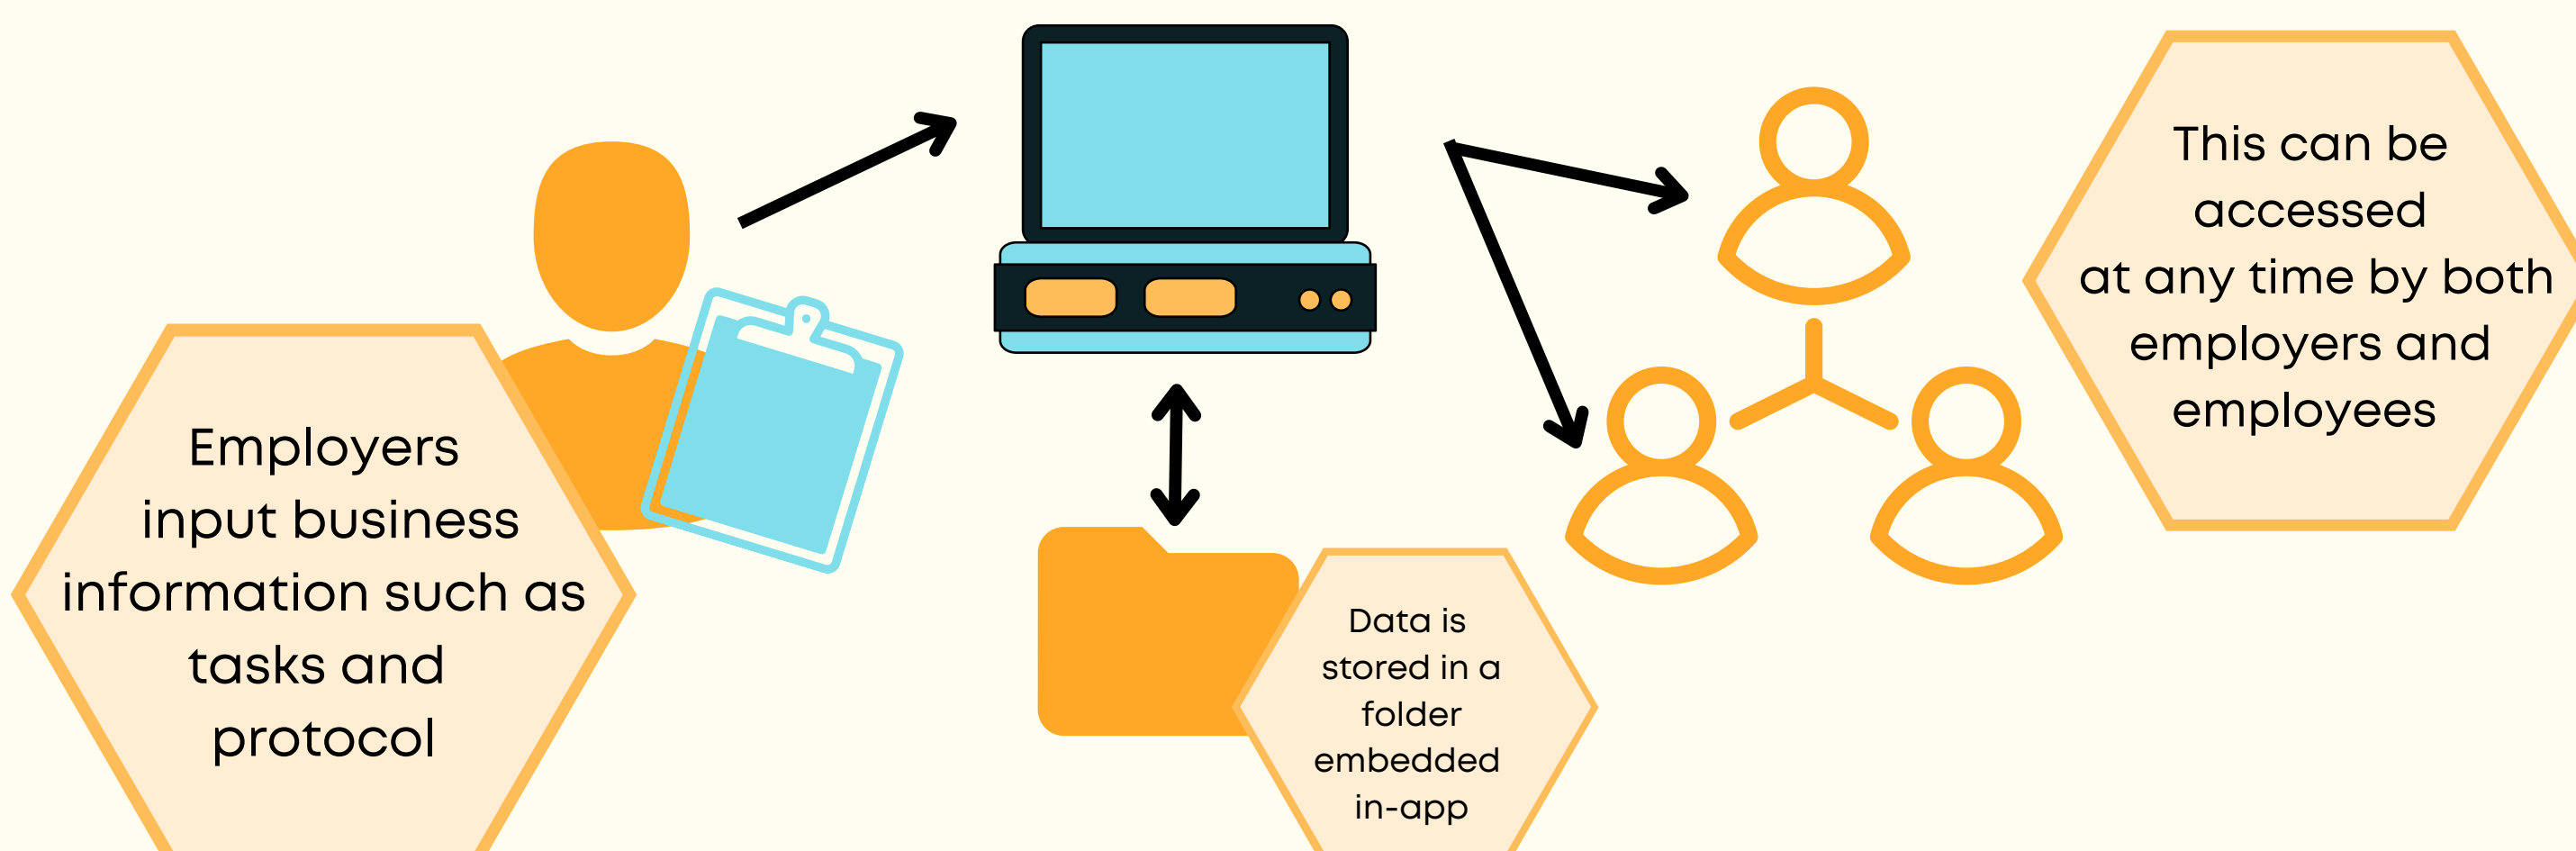

Business management software which focuses on financial needs (payroll, punches, and even recruiting).

UKG Ready

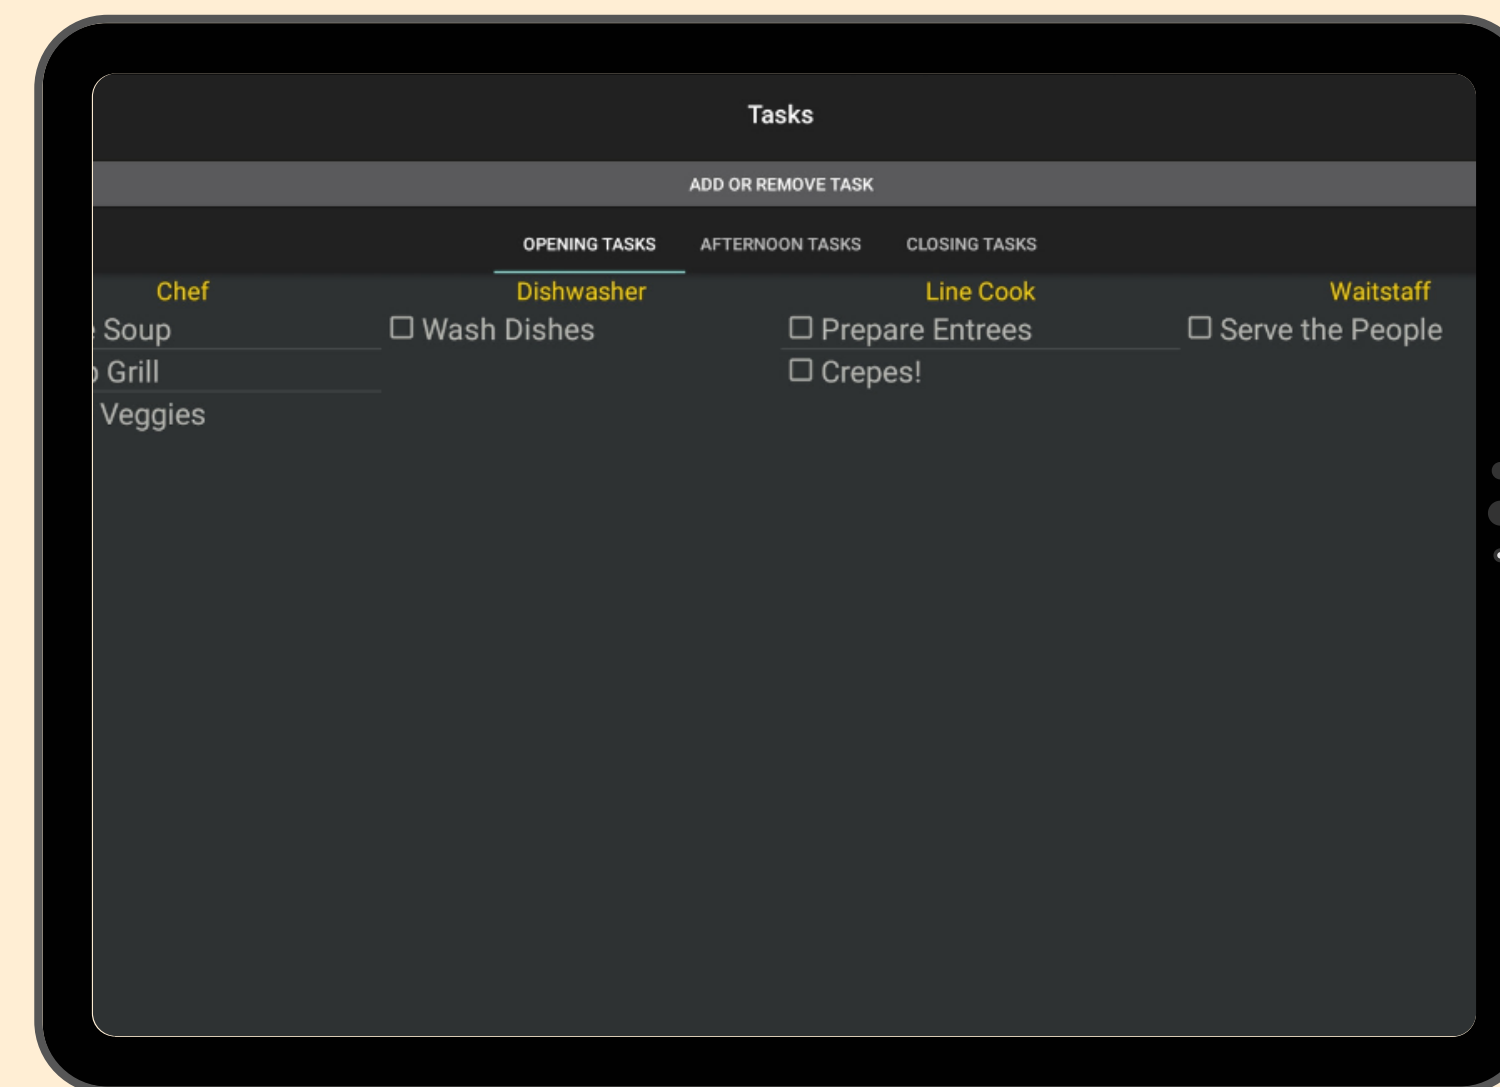

Human Resources application with Learning feature that relies on imported curricula and checkpoints.

ARCHITECTURE
